You may reach us at (480) 227 9845 or jill@pre-kacademy.com

Alphabet Action Adventures (*Bodily-Kinesthetic & Musical*)

Alphabet Action Adventures combines creative movement, music, dance, and yoga to teach letter/sound recognition.

Letter Engineers (*Visual-Spatial*)

Come build letters with us! Students will begin to explore their creative sides by using objects such as Lego®, Wikki Stix®, play dough and building blocks. Children will learn about physics and problem solving while strengthening their understanding of correct letter formation!

Vivacious Vocab! (*Linguistic*)

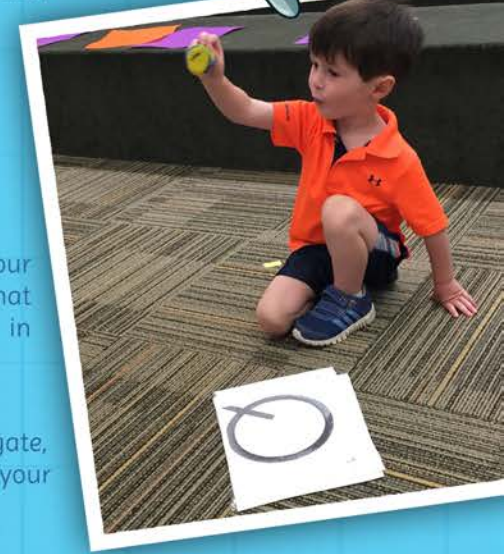

Even preschoolers can learn to be articulate! Our silly puppet, Articulate Annie, will teach your child advanced vocabulary words through books, songs, plays and more! Research shows that young children who have strong vocabularies often excel at reading comprehension in elementary school.

Mind Matters (*Logical-Mathematical*)

Build your thinking skills! This class teaches children how to problem-solve, question, investigate, sort and classify. We use science experiments, art lessons, games and dramatizations to help your child expand his or her mind. Your Child's Mind Matters!

Silly to Still™ (*Executive Functioning and Self Regulation*)

Children will learn important school readiness skills such as impulse control, mental flexibility, and following directions. These skills are taught through mindful movement games, breathing exercises and yoga poses.

Reading Rocks (*Bodily-Kinesthetic & Musical*)

This fun filled class will take your child on a magic carpet ride through the world of language and literacy. We practice rhyming, explore word families, learn sight words and begin simple decoding.

Mathematical Minds (*Logical-Mathematical*)

Children learn beginning math concepts through music, games, problem solving, puzzles and more!

Letter Engineers (*Visual-Spatial*)

Come build letters with us! Students will begin to explore their creative sides by using objects such as Lego®, Wikki Stix®, play dough and building blocks. Children will learn about physics and problem solving while strengthening their understanding of correct letter formation!

Super Sight Words (*Linguistic*)

Did you know that sight words make up 50-75 percent of all words used in schoolbooks, library books, newspapers, and magazines? This class teaches common sight words through music, action-oriented games and fun crafts. This class will help your child become sight word savvy!

Vivacious Vocab! (*Linguistic*)

Even preschoolers can learn to be articulate! Our silly puppet, Articulate Annie, will teach your child advanced vocabulary words through books, songs, plays and more! Research shows that young children who have strong vocabularies often excel at reading comprehension in elementary school.

Silly to Still™ (*Executive Functioning and Self Regulation*)

Children will learn important school readiness skills such as impulse control, mental flexibility, and following directions. These skills are taught through mindful movement games, breathing exercises and yoga poses.
